# Kobo Connect – CloudLibrary App

## To begin sending CloudLibrary eBooks wirelessly to the Kobo you must first connect your CloudLibrary account to Kobo.

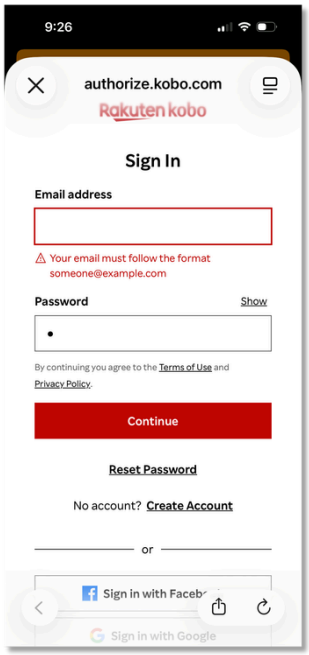

1. Open the CloudLibrary App (log in with the barcode on your SDG Library card and password pin).
2. Go to **Account** > **Kobo Connect**. Then click **Connect** and **Continue**.

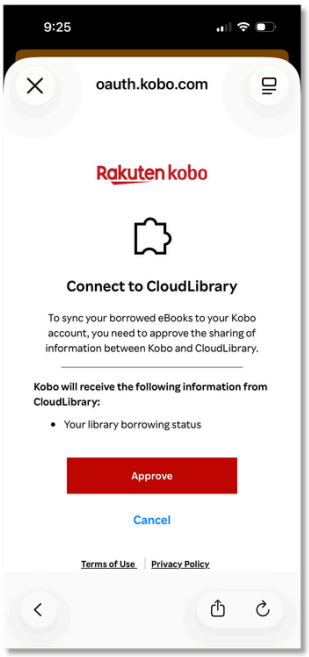

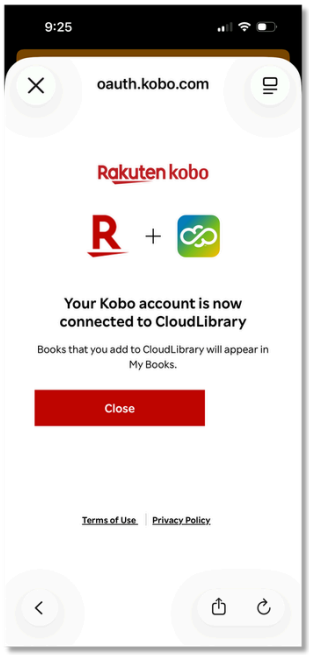

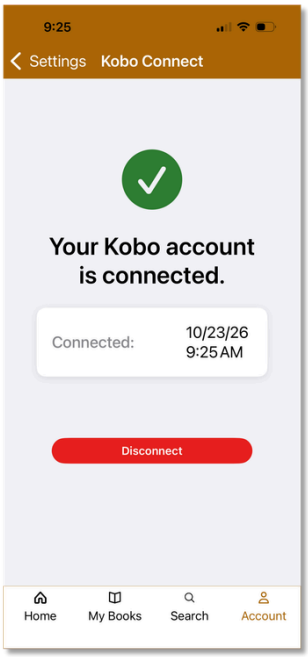

3. **Enter your Kobo Account details to sign in** (email and password when you signed up for a Kobo account). **Click Approve** and then **Close**. Use the reset password link if you cannot remember the password for your Kobo account. You may also create a new Kobo account from here if you don't already have one. If necessary, you may also disconnect your Kobo account from the Kobo Connect menu.

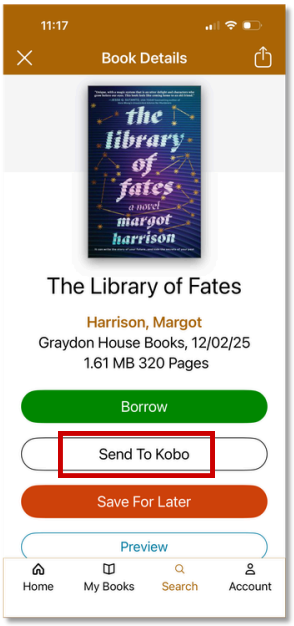

# Kobo Connect – CloudLibrary App

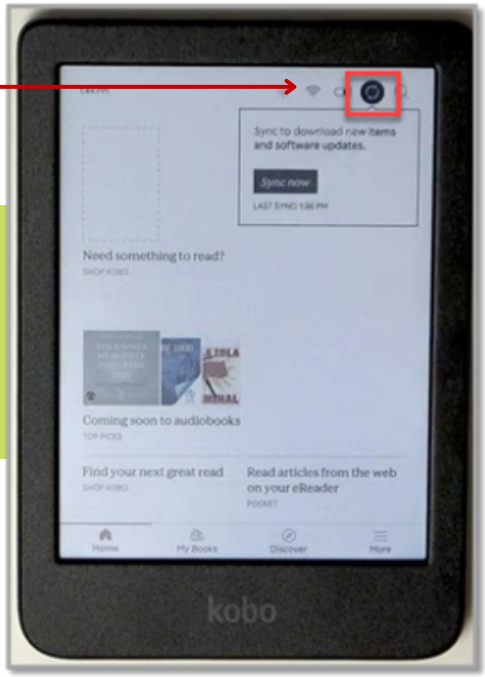

## Finding and sending eBooks from CloudLibrary to the Kobo.

1. Search for available eBooks and click on the eBook's cover image to view the full details.
2. **Click Send to Kobo**.

*The 'Send to Kobo' button remains on the book details screen if you need to send it again.*
*Note: There may be a small number of titles that are not available through Kobo. These will not have the 'Send to Kobo' option. Titles without the 'Send to Kobo' button can be copied to the Kobo using Adobe Digital Editions.*

3. The eBook should appear on the Kobo within a short time. If there is a delay, tap the Sync icon at the top right of the Kobo home screen to prompt the Kobo to download new items.

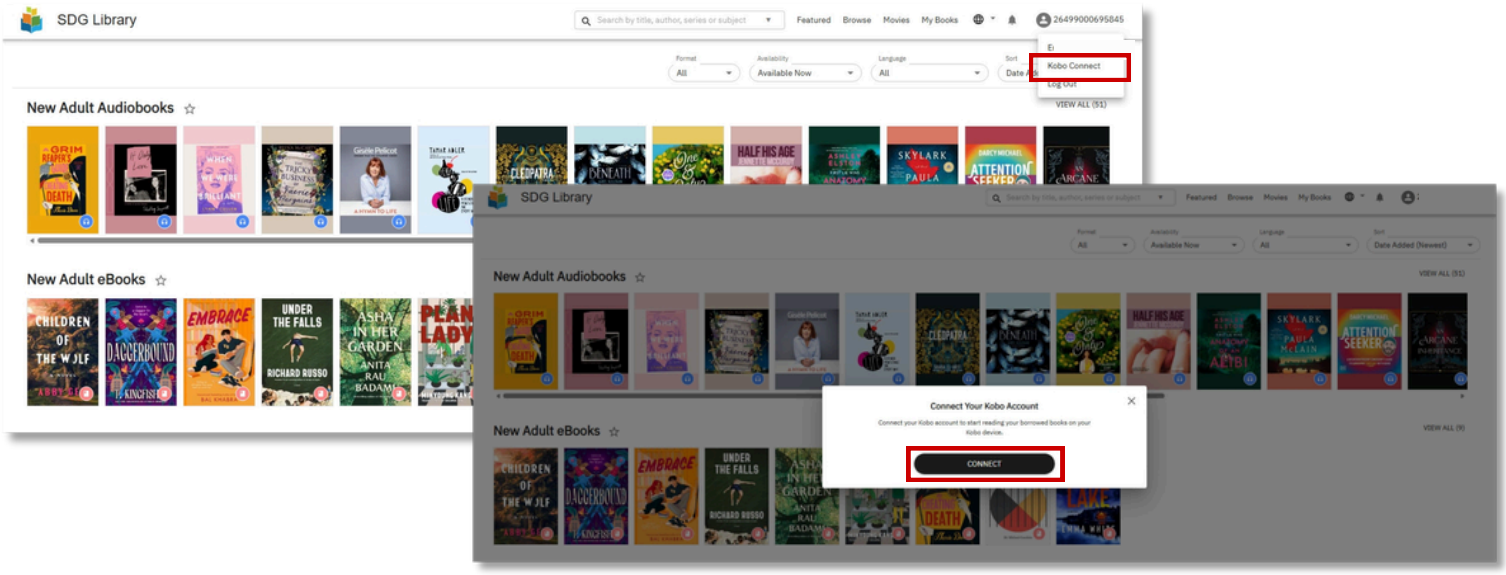

## Reading and Returning eBooks

1. To access your eBooks tap **My Books** on the Kobo home screen. Click to select the title to read.
2. To remove eBooks from the Kobo, go to **My Books** and tap the three dots next to a title and select **Remove**. Note: this removes the book from Kobo but does not return it to CloudLibrary.
3. To return eBooks open the CloudLibrary app, go to **My Books** > **Current** and click on the three dots next to the title you want to return and tap **Return**. Loans will expire automatically at the end of the borrowing period.

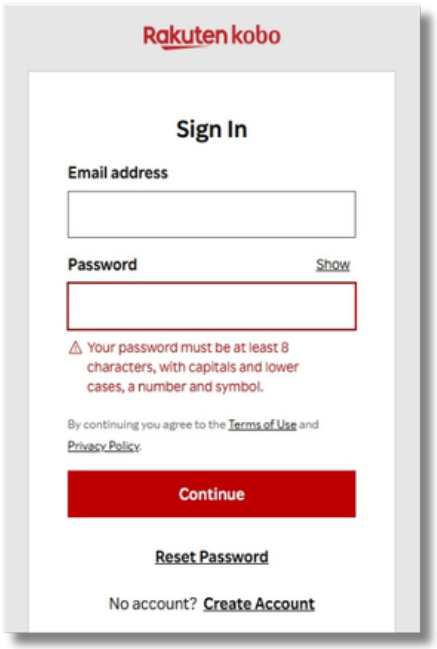

# Kobo Connect – CloudLibrary Website

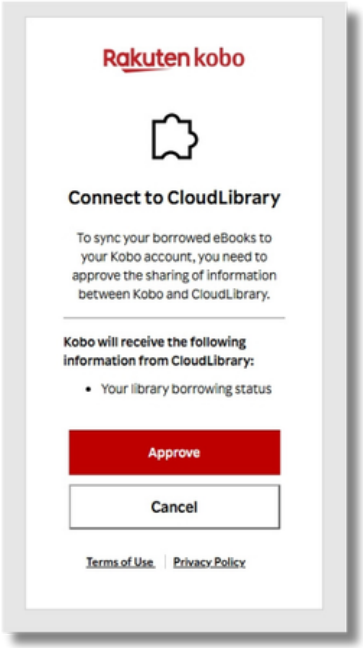

**To begin sending CloudLibrary eBooks wirelessly to the Kobo you must first connect your CloudLibrary account to Kobo.**

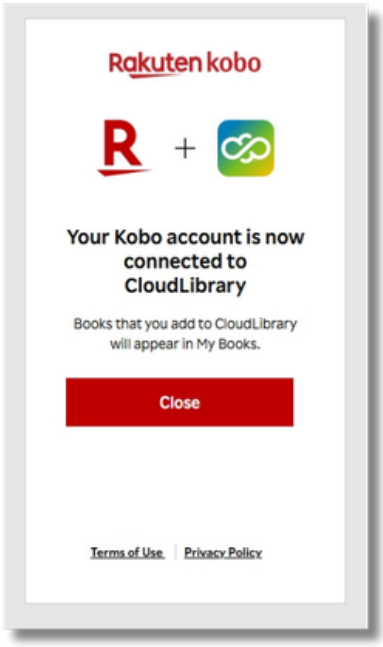

1. Open the CloudLibrary website (log in with the barcode on your SDG Library card and password pin).
